30 July 2010

To: **cidb** Registered Contractors

### ***Annual cidb Construction Industry Indicator Survey***

The **cidb** Construction Industry Indicators (CIIs) are measures of the performance of the industry, focusing on clients, the client's agent / consultant and contractors. The CIIs provide a wealth of information, and are used by the **cidb** to develop a deep understanding of the industry, and to monitor trends in the industry. Details of previous CUII surveys are available on the **cidb** website.

The CIIs have been captured annually since 2003, and are currently being captured by the **cidb** in partnership with the Department of Quantity Surveying and Construction Management of the University of the Free State.

Representatives from the University may be contacting you shortly to ask you to participate in the 2010 CII survey – and the **cidb** requests that you provide the University with the information that they require to undertake this survey.

If you have any comments or queries regarding this annual survey, please contact Pumelele Qongqo at [pumeleleq@cidb.org.za](mailto:pumeleleq@cidb.org.za) or 012 482 7262.

Your participation and support is greatly appreciated.

Yours Sincerely

Rodney Milford  
Programme Manager: Construction Industry Performance
