1 INTRODUCTION

The Construction Industry Development Board Act (Act 38 of 2000) requires the Board to establish a *Best Practice Contractor Recognition Scheme* which:

- (a) *enables organs of state to manage risk on complex contracting strategies; and*
- (b) *promotes contractor development in relation to best practice standards and guidelines developed by the Board.*

In addition, the Act also requires the Board to establish a *Best Practice Project Assessment Scheme*, based on the best practices identified by the Board. After a date determined by the Minister in the Gazette, all construction contracts above a prescribed tender value will then be subject to an assessment, in the prescribed manner, of compliance with best practice standards and guidelines published by the Board, and different dates may be determined for different practices.

Contractor performance reports are an integral part of the *cidb Best Practice Contractor Recognition Scheme* and the *cidb Best Practice Project Assessment Scheme*. Contractor performance reports are required to be submitted by the employer (on behalf of the client) to the *cidb* on practical completion of all prescribed public sector projects.

The contractor performance report provides a track record of the performance of contractors, and after the date and above a prescribed tender value determined by the Minister in the Gazette, assessment of a contractor's track record is required to be taken into account in construction procurement on all public sector contracts for the purpose of:

- assessing the suitability of contractors for pre-qualification, selective tender lists or expressions of interest; and
- adjudication for the award of a contract.

This document presents the requirements for the submission of performance reports, together with guidelines for the completion of performance reports as well as guidelines for clients for taking contractor track record into account in construction procurement.

2 DEFINITIONS

For the purposes of this document, the following definitions shall apply:

To be completed

3 REQUIREMENTS FOR CONTRACTOR PERFORMANCE REPORTS

3.1 Registration of Projects

In terms of the Construction Industry Development Board Regulations 2004 (as amended 2008), all public and private employers must, in the manner prescribed by the cidb:

- a) register a contract above a prescribed value (see below) with the cidb at least monthly for the public and quarterly for private employers, respectively, from the date on which the contractor's offer to perform a construction works contract is accepted in writing (using Form CRS-F001);
- b) notify the cidb of the issuance of a certificate of practical completion of a registered contract, within one calendar month of the date of issue of a practical completion certificate to the contractor (using Form CRS-F002); and
- c) notify the cidb of the termination or cancellation of a registered contract and the reasons therefore, within one calendar month of the date upon which the contract was cancelled or terminated by either of the parties (using Form CRS-F003).

Minimum Prescribed Value for Registration of Projects	
Sector	Minimum Project Value
Public sector projects	R200 thousand
Public entity	R10 million
Private sector projects	R10 million

Where prescribed, all public sector employers must submit contractor performance reports to the cidb, in the manner prescribed by the cidb:

- a) within 30 days of the date of issuance of a certificate of practical completion of a registered contract (using Form CRS-F002); or
- b) within 30 days on the date of issuance of a notice upon which the contract was cancelled or terminated (using Form CRS-F003).

3.2 Compliance Requirements

Contractor performance reports are required to be submitted on all public sector contracts after the date and above a prescribed tender value determined by the Minister in the Gazette. The initial phased requirements for submission of contractor performance reports are given below:

Sector	Minimum Tender Value	Implementation Date
National Public Works and regions	tbd	tbd
National government departments		
Provincial government departments		
Public entities		
Metros		
High-capacity municipalities		
Medium-capacity municipalities		
Low-capacity municipalities		

3.3 Responsibility for Submission of Contractor Performance Reports

The Employer's Representative or his/her designated authority (referred to here the Reporting Officer) is responsible for the completion of the contractor reports on behalf of the employer/client.

To be in a position to make factual assessments against the evaluation criteria in the contractor performance report on the contractor's performance, the Reporting Officer must:

- be experienced in contract management; and
- have frequent and direct liaison with the contractor.

The contractor performance reports must be signed off by the Reporting Officer and by the employer's representative, as well as the contractor.

3.4 Right of Reply / Appeal

Each contractor performance report must be discussed with the contractor, who must be given the opportunity to comment on the assessment. The Reporting Officer must respond to any issues raised by the contractor in writing, and the contractor's comments and the written response by the Reporting Officer must form part of the contractor performance report. The contractor performance report must then be signed-off by the Employer's Representative.

Where significant differences of opinion exist between the employer and the contractor which cannot be resolved by the parties, the contractor has the opportunity to an independent review of the contractor performance report by a mutually agreed Adjudicator, as stipulated in the Contract and the "*cidb Adjudication Procedure, March 2004, 1st Edition of cidb document 1014*". The contractor appeal process is outlined below:

- a) The contractor must state on the signed contractor performance report (in the appropriate place, on Form CRS-F002, Appendix 1 or Form CRS-F003, Appendix 2) that he/she appeals the performance assessment by the Reporting Officer.
- b) The contractor must notify the Employer's Representative of its intention to refer the matter to an adjudicator within 28 days by issuing a Notice of Adjudication.
- c) The contractor must submit the name(s) of one or more Adjudicator(s) who have agreed to act as Adjudicator to the Employer's Representative with Notice of Adjudication.
- d) The Employer's Representative must select the Adjudicator within 4 days and notify the contractor accordingly.
- e) The contractor must submit the case on Form CRS-F004, Appendix 3 to the Adjudicator not later than 14 days after receipt of confirmation of the appointment of an Adjudicator and forward a copy to the Employer's Representative.
- f) The Employer's Representative may, within 14 days of the Adjudicator receiving the contractor's case, submit a response to the Adjudicator.
- g) The Adjudicator shall notify the contractor and the Employer's Representative of his/her decision together with his reasons within 28 days of receipt of the case from the contractor.
- h) The Adjudicator's decision is binding until the dispute is finally determined by litigation or arbitration if required by either the contractor or the Employer's Representative.
- i) Where the contractor performance report is changed as a result of a Review, an adjusted copy of the report is to be given to the contractor, the Employer's Representative and the reporting Officer.
- j) The Reporting Officer will forward this copy of the contractor performance report to the *cidb*.

3.5 Auditing of Contractor Performance Reports

All contractor performance reports may be subject to inspection, audit and validation by the cidb from time to time.

3.6 Non-completion of Contractor Performance Reports

Any organ of state who fails to submit a contractor performance report to the cidb in terms of the Regulations is guilty of an offence and is liable to referral to the Auditor-General.

In the case of an organ of state being found guilty of non-completion of Contractor Performance Reports, the particulars of the findings and the sentence will be published by the Board in the Gazette and will be submitted to the Auditor-General.

3.7 Exchange of Contractor Performance Report Information

A condition of tendering and contracting with the public sector is that summarised information contained in contractor performance reports will be made available to the public through the cidb Register of Contractors. The format of information to be made available is given in Form CRS-F005 in Appendix 4, using the following principles:

- i) The contractor performance summary reports will only be made available to employers that are registered with the cidb.
- ii) Where a contractor is registered in more than one of the cidb works categories, i.e., civil engineering (CE), general building (GB) and specialist works (SB), the cidb will provide separate contractor performance summary reports for each cidb works category.
- iii) Only the minimum, average and maximum scores obtained for each of the different performance criteria from each contractor performance report will be given in the summary report. An illustrative example is given below for a contractor with five performance reports (see Appendix 4 for scoring):

	Time Management	Cost Management	Quality Management	Health & Safety Management	Site Conditions	Aggregate Score
Project	Score	Score	Score	Score	Score	
Project 1	1	0	1	1	0	
Project 2	0	1	1	1	1	
Project 3	1	2	1	1	1	
Project 4	2	1	2	1	1	
Project 5	1	2	1	1	1	
Contractor Performance Summary Report						
Minimum Score	0	0	1	1	0	
Average Score	1	1.2	1.2	1	0.8	1.04
Maximum Score	2	2	2	1	1	

- iv) The number of individual contractor performance reports used for the summary report will be identified, with a maximum of the 10 most recent contractor performance reports.
- v) Performance reports older than five years will not be reflected in the contractor performance summary report.
- v) Changes in the grading of a contractor will not influence the contractor performance reports used for the summary report.

- vi) Failure to complete a contract under circumstances within the contractor's control issued in terms of a notice of termination or cancellation will also be recorded on the contractor performance summary report.

4 GUIDELINES FOR CLIENTS

The following guidelines for public sector clients are given in the following Appendices:

- i) Guidelines for clauses to be included in Conditions of Tendering and Conditions of Contract in the tender and contract documents for public sector organisations are given in Appendix 5.
- ii) Guidelines for using contractor performance reports for Tender Evaluation by public sector organisations are given in Appendix 6.

APPENDIX 6: GUIDELINES FOR PUBLIC SECTOR TENDERING AND ADJUDICATION OF CONTRACTS

Clients and employers soliciting tender offers may introduce in the evaluation of expressions of interest or tender offers quality criteria relating to the score obtained from contractor performance reports in terms of the regulations from a date determined by the Minister in the Gazette in accordance with the requirements of the cidb Standard for Uniformity in Construction Procurement.

A6.1 Tender data or submission data

The tender data or submission data, as relevant, shall indicate which of the following indicators are to be scored as part of quality and what the total number of points allocated to each criteria is:

- a) skill and commitment in managing time
- b) skill and commitment in managing cost
- c) skill and commitment in managing quality on site
- d) skill and commitment in managing health and safety on site
- e) skill and commitment in managing conditions on site
- f) aggregate score for contractor performance report

A6.2 Scoring of evaluation criteria

The scoring of each of the evaluation criteria shall be assessed in terms of four indicators – poor score (-1), adequate score (0), good score (1) and excellent (2). Scores of 25%, 50%, 75% or 100% will be allocated to poor score, adequate score, good score and excellent score, respectively.
