Contractor Tips & Advice:
CONSTRUCTION HEALTH & SAFETY
National Contractor Development Programme

Construction H&S has in recent years received widespread attention through the media, making employees and the general public more aware of the number of fatalities and injuries occurring in the construction industry particularly on sites. The following are different stakeholders contributing to construction H&S awareness:

Gauteng CCC
SABS Campus,
Blocks N & R
No 2 Dr Lategan Road
Groenkloof,
Pretoria, 0001
Tel: 0861 428 222,

Cape Town, 8000
Tel: 0861 927 222,
Fax: 0866 740 914
you need to identify and control H&S hazards, lower the risks, and improve H&S performance.

It is your responsibility as a contractor to identify, analyse, record, update and consistently observe all the clauses in the contract that relate to H&S including the provisions of Occupational Health and Safety Act (OHSA) and the Construction Regulations.

The contract conditions and OHSA place specific legal liabilities on you through explicit or implicit clauses. It is incumbent on you to recognise these liabilities and to put control measure to limit the risks.

An act of omission may cause a legal liability for your business.

It is good business management
Implementing practical measures to address H&S is just what is needed to gain a competitive edge - it is good business management.

Poor management of Health and Safety will result in financial costs. Beside injuries and fatalities, poor management of Health and Safety leads to loss of financial resources, either through replacement cost or compensating the affected as a result of your negligence.

It is important to recognise the link between good H&S performance and good business management.

Good H&S performance has business benefits, amongst them:

- Saves unnecessary cost (penalties for non-compliance).
- Improves competitiveness.
- Improves relationship with clients.
- Improves risk profile with financiers and insurance companies.
- Reduces risk of prosecution.
- Improves productivity of your company.
- Keeps your employees motivated.

IGNORANCE IS NO EXCUSE!!!

It is good business management
Implementing practical measures to address H&S is just what is needed to gain a competitive edge - it is good business management.

Poor management of Health and Safety will result in financial costs. Beside injuries and fatalities, poor management of Health and Safety leads to loss of financial resources, either through replacement cost or compensating the affected as a result of your negligence.

It is important to recognise the link between good H&S performance and good business management.

- Saves unnecessary cost (penalties for non-compliance).
- Improves competitiveness.
- Improves relationship with clients.
- Improves risk profile with financiers and insurance companies.
- Reduces risk of prosecution.
- Improves productivity of your company.
- Keeps your employees motivated.

GOOD HEALTH AND SAFETY PRACTICES = GOOD BUSINESS MANAGEMENT

Implementation will gain you cidb Best Practice Contractor Recognition
Apart from the requirement of OHSA, Construction Regulations and Good Practice, the cidb is at an advanced stage of developing a Best Practice Contractor Recognition Scheme.

The Best Practice Contractor Recognition Scheme will amongst others:

- allow clients to recognise contractors that perform well on projects;
- allow clients to recognise the skills and competency of a contractor;
- promotes improved business performance and improved project delivery;
- promote business opportunities for better performing contractors and for contractors that meet or exceed client expectations.

In future, the Best Practice Contractor Recognition Scheme will be taken into account in the adjudication of public sector contracts bids.

GOOD HEALTH AND SAFETY PERFORMANCE WILL IMPROVE YOUR COMPETITIVENESS

KEY LEGISLATION ON HEALTH AND SAFETY

The legislative framework addressing Health and Safety in South Africa is at three levels, firstly in terms of the national constitution, secondly in terms of Acts such as the OHSA and followed by regulations such as Construction Regulations.

As a contractor it is important to familiarise yourself with the legislative framework.

THE SOUTH AFRICAN CONSTRUCTION INDUSTRY NEEDS CONTRACTORS WHO ARE HEALTH AND SAFETY CONSCIOUS AND CONTRIBUTE TO THE REDUCTION OF INJURIES AND FATALITIES
